☞ Provide copy of Twinning Agreement in attachment

	REQUEST FOR TWINBASIN^{xn} SUPPORT	Number of pages : 2 / 8
---	---	--------------------------------

① Support for adequate filling of the request:

1. Programme and missions should be coherent with following eligibility criteria:

- Duration: More than **7 days** ; less than **2 months or 60 days**
- Global topic: Integrated Water Resources Management
- Existing Twinning Agreement
- MoU signed by both Basin Organisations
- Coherency of Twinning Agreement matching with project "[Project Twinning Recommendation](#)"
- Coherency with "[Project mobility rules](#)"

2. For each twinning:

- Number of missions: Not more than **8 missions** can be considered in this assessment. You can realize:
 - 8 missions with 1 experts/mission
 - 4 missions with 2 experts/mission ...
- Deadline: After agreement on your twinning project, you have **12 months** to carry out the missions.

3. Financial support will be limited for each mission to :

- Travel: maximum **EUR 1000** (Train 1st Class or Plane APEX economy class);
- Per Diem: maximum **EUR 70 per day**.

If real cost is over above mentioned limits, the remaining part will be supported either by sending organisation, either by host.

4. Overall assessment will be done according to the:

- Definition of mission main objectives
- Relevance for IWRM improvement
- Expert profile (Curriculum Vitae) adequacy with objective

Papers to join to project report:

- Copy of signed Twinning Agreement
- Copy of signed TWINBASIN^{xn} MoU (MoU can be downloaded on www.twinbasin.org)
- Expert Profile

5. Decision for financial support:

It will be transmitted to demander within 2 months after request.

6. Refunding:

You must download "[Guidelines to report the missions](#)"

It will be done after "Expenses Form reception" and "Report approbation" (within 1 month after Report reception).

• **Programme of exchanges 2007 :**

➔ Mission 1

• **Topic :** *Experiment sharing on water management*

• **Main objectives (Please provide sufficient details):**

This first mission will deal with experience sharing on water management, in order to compare the topics and the different ways of management and to diagnose the points of possible further collaboration.

Four main topics will be discussed :

- *Flood management*
- *Technological risk management*
- *Information system on water management*
- *Water management at the catchment's area scale*

During the first week in France, the mission will meet :

- *The Agence de l'Eau Adour Garonne*
- *The AFEPTB (French association of the public basin organisations) witch is chaired by EPIDOR*
- *The SPC Dordogne (Service of forecast of the risings)*
- *The service of State responsible for alarm*
- *Frédéric DELMARES, an elected official who has lived the rupture of Tuilières dam*
- *EDF, the electric company*
- *OIE (international office for water)*

And the mission will visit several sites:

- *Bort-les-Orgues dam witch is the most important dam of the basin (120m high, 470hm³)*
- *Tuilières dam (20m high) witch has broken in January 2006 and is being rebuilt*

• **Missions' outputs:**

A report of the visits and meetings will be submitted with the conclusions of each organisation with its appreciation of positive and negative aspects of the mission.

• **Results indicators:**

Number of met organisations and persons

Number of met sites

• **Host Basin Organisation:** EPIDOR

• **Place:** Dordogne, France

• **Duration of stay within Twinned organisation:** 5 days

• **Estimated calendar about mission implementation (month/year):** june - july 2007

• **Number of experts involved:** 2007

• **Expert profile (attach CV):**

Air ticket (€) (per expert)	Per diem (per expert)		Number of experts involved	TOTAL (€)
	days	x 70 €		
300	5		350	1950

➔ Mission 2

- **Topic :** *Experiment sharing on water management*

- **Main objectives (Please provide sufficient details):**

Based on the experiences of the first mission the particularities of the national water management, flood and excess water control will be discussed and an agreement will be reached on how to continue the cooperation.

Discussion will be continued on the following topics:

- *Flood management*
- *Technological risk management*
- *Information system on water management*
- *Water management at catchment area scale*

The Middle-Tisza District environment and Water Directorate has an operational area of 7200 km² and several decade-long experience with water management. Therefore the following institutions and sites will be visited on the area:

- *Centre of KÖTIKÖVIZIG in Szolnok*
- *Technical Unit in Kisköre and in Mezőtúr*
- *Lake Tisza and the Kisköre Barrage*
- *The River Tisza*
- *Dike relocation at Bivaly-tó (and LIFE project)*
- *Construction site of the Tiszaroff reservoir*

Emphasis will be put on the following topics:

- *Cyanide contamination at the River Tisza*
- *Extreme floods in 1999, 2000 and 2006*
- *International projects*

- **Missions' outputs:**

A report of the visits and meetings will be submitted with the conclusions of each organisation with its appreciation of positive and negative aspects of the mission.

A common agreement will be reached on the follow-up actions.

- **Results indicators:**

Number of visited organisations and persons

Number of visited site

- **Host Basin Organisation:** *KÖTIKÖVIZIG*

- **Place:** *Szolnok*

- **Duration of stay within Twinned organisation:** *5 days*

- **Estimated calendar about mission implementation (month/year):** *august-september 2007*

- **Number of experts involved:** *3*

- **Expert profile (attach CV):**
